5.10-4-2020

JKKN dental college and Hospitals was the first to begin Complete online teaching class in pandemic period by providing adequate training to teaching staff and students to handle the digital tools and online classes.

Learning never stops' amid COVID-19

Dear Students,

I hope that you are all safe and healthy during this unique time in our history. The COVID-19 virus outbreak has sent the world into a state of worry and disorientation, resulting in repercussions including social distancing, severe travel restrictions and an unprecedented level of anxiety among individuals. But the lockdown opens the door to new ways of online learning.

As you well aware of that our J.K.K.Nattraja Educational Institutions had prepared and moved to virtual classroom environment even before the COVID-19 lockdown, to enable teachers and students interact and collaborate in remote learning scenarios. Each and every staff and students has been provided with email ids under their domain as well as enter into online platforms. The staff were trained in various technological platforms such as windows, Google Classroom, Google Meet and Google Hangout. The students were grouped or subgroups for immediate communication.

I am so delighted to see that the Lockdown period is not a hurdle to our students who learn through online platforms. All of our colleges and schools students (Dental, Pharmacy, Nursing, Engineering, Arts and Science and Education, Matriculation and Birla schools) are now being engaged eagerly in their regular classes. Prior restriction on Scheduled subjects and Termine guide our students to be prepared to attend classes and tests. 100% seats are now handling online classes and 5000 students are attending classes every day.

The past lockdown weeks' scenario reveals that JKKN students appreciated that there are no on-site learning and employing enormous time in using the technology platforms effectively. I wholeheartedly appreciate our Principals and Staff members who are aligned to control themselves in protecting our students at this crisis. I also thank the parents, supporting us on the steps taken by us in engaging, engaging, ensuring our students during the readily changing situation.

I sincerely wish our students to utilize the adverse situation as an opportunity to learn from home. Their flexibility in engaging with online platforms and virtual classes will not only award academically success but also capture you to adapt to any circumstances in future.

Best Wishes,

 Dr. S. Elanchezhian S,
 Director, J.K.K.Nattraja Educational Institutions,
 Kumarapalayam.

6.28-7-2020- COVID online education

JKKN dental college and hospitals has initiated this inline distant dental education for effective implementation of curriculum for undergraduate and postgraduate students using Google tools like Google meet, Google Docs, Google sheets and Google slides.
