## SENIOR RESIDENT INTERNSHIP PROGRAMME

**Course outline**

The Senior Internship Residency Program is designed to enhance the clinical skills of dental graduates and clinicians in Conservative Dentistry and Endodontics. It merges theoretical knowledge with practical clinical applications, focusing on prevention, diagnosis, emergency handling and conservative management using state of the art techniques and materials. Collaboration with other departments broadens the learning scope, fostering a holistic approach to dental care. The program covers clinical skills, patient management and ethical considerations in practice preparing residents to excel both clinically and academically in their professional lives.
