

CURRICULAR ASPECTS COMMITTEE

The **Curricular Aspects Committee** plays a pivotal role in shaping and enhancing the academic framework of our dental college. Committed to excellence in education, the committee ensures that the curriculum remains dynamic, student-centred, and aligned with contemporary advancements in dental sciences.

Objectives:

- To develop and periodically revise the curriculum in accordance with the guidelines of regulatory bodies such as the Dental Council of India (DCI).
- To integrate innovative teaching methodologies, including digital learning and hands-on training, for a comprehensive learning experience.
- To promote interdisciplinary and evidence-based education, preparing students for modern dental practice.
- To encourage research, critical thinking, and problem-solving skills among students.
- To incorporate community-based learning initiatives to enhance social responsibility and patient-centred care.

Functions:

- Regular assessment and updating of course content to maintain relevance with industry and academic advancements.
- Organizing faculty development programs and workshops to improve teaching effectiveness.
- Facilitating collaborations with healthcare institutions and research organizations for academic enrichment.
- Monitoring and evaluating student feedback to enhance the teaching-learning experience.
- Ensuring adherence to accreditation and quality assurance standards.

The **Curricular Aspects Committee** remains dedicated to fostering an engaging and progressive academic environment that equips future dental professionals with the knowledge, skills, and ethical values necessary for excellence in patient care.
